13	EVENT GENDER [1] M: Male F: Female
14	GENDER TYPE [1] M: Men, F: Women, B: Boys, G:Girls
17:20 21	DISTANCE [4] STROKE [1] A: Freestyle, B: Backstroke, C: Breaststroke, D: Butterfly, E: Medley
22:24	AGE LOWER [3] Right aligned. 0 =UNDER. Lower age of 0 and upper age of 109 indicates OPEN/SENIOR
25:27	AGE UPPER [3] Right aligned. 109 = OVER
32:37	EVENT FEE [6] Right aligned. Byte 35 is the decimal point. Default to 0.00
38:40	EVENT NUMBER [3] Up to 3 digits. Right Aligned.
43:49	SEED TIME 1 [7] Two decimal places (decimal in byte 47) otherwise 0 in byte 49 if not valid.
50	SEED TIME 1 COURSE [1] Y = Yards, S = Short Course Meters, L = Long Course Meters.
52:58	SEED TIME 2 [7] Two decimal places (decimal in byte 56) otherwise 0 in byte 58 if not valid.
59	SEED TIME 2 COURSE [1] Y = Yards, S = Short Course Meters, L = Long Course Meters.

NOTE:
For the seed times I think the course field may actually be two characters. I will try and verify this. Also I think TM will mark a time with a 'C' if it has been corrected. There may even be an indicator if the time is a converted time.
